INTERVIEWER: I am conducting a study commissioned by Eurofound (the European Foundation for the Improvement of Living and Working Conditions). This is a survey that is being carried out in every EU Member State and some neighbouring countries. The aim is to explore how people feel about their quality of life. The results will be used to help to improve living conditions for everyone living in Europe. The current survey is the third wave of a series, so the results will show how living conditions have changed in Ireland and in Europe over the last eight years. Do you currently have time to answer my questions? The survey takes about 40 minutes to complete. Your answers will remain anonymous and participation is voluntary. You can refuse to answer a question at any stage or terminate the interview completely. (The European Foundation is a publicly funded European Union agency based in Ireland specialised in research on working and living conditions in Europe.)

You may not interview before 8:00 am
You may not start a new interview after 10 pm
