Information on traineeships

31 January 2019

This programme is addressed mainly to recent university graduates, without excluding those who – in the framework of lifelong learning – have recently obtained a university diploma and are at the beginning of a new professional career.

Eurofound is an equal opportunities employer. Traineeships will be offered on the basis that the candidate has the ability to participate to the extent necessary and will benefit from the experience.

For further information, interested applicants can read the Rules governing the Official Traineeship Scheme (2019).

The deadline for applications was 24 January 2019. Applications are valid until end of 2019. Shortlisted candidates will be contacted for telephone interviews, throughout the year, according to business needs.

Please see below for a breakdown of the traineeships available at Eurofound during 2019.
