H14.

[ASK ALL]

HFLEXI

Approximately what percentage of employees have the possibility to adapt - within certain limits - the time when they begin or finish their daily work according to their personal needs or wishes?

[Interviewer: This question refers to what is often called ‘flexitime’, where employees choose their starting time, for instance, between 7h and 10h and finishing time, for instance, between 15h and 18h.]

[INTERVIEWER: please ask for rough percentages first, in case the respondent could answer by using absolute number, please record the answer in the Number of employees field]

H.4 Pay

[ASK ALL]
H23.
Now I am going to read out certain variable payment options on top of basic pay that might be in place in your establishment. Could you please tell me for each of these options, whether or not they are available to at least some employees?

[Interviewer: DO NOT READ OUT, ONLY IF NECESSARY: Variable pay elements are extra pay elements in addition to basic pay and they are not (necessarily) paid out regularly. They might depend on the performance of the individual employee, groups or the whole company. They can be granted after subjective performance appraisal by management or after reaching agreed “objective” results (payment by results).]
[Note to interviewer: The question aims in principle at extra pay on top of basic pay. In the case of payment by results, it might happen that this extra pay is "instead" of basic pay. If this is the case, the answer should still be "yes".]

MERCONTA
For our research project it is very important to have the views of both, the employers as well as of the employee representatives within the establishment. To this end, we would also like to make a short interview with someone who can offer the views of the employee representation on some of the topics discussed.

We assure you that the survey will be carried out under all the confidentiality and data protection rules. All the data gathered from the survey will be anonymised and none of your answers will be shared with the employee representative and vice versa.
